

## Who can participate in ELN?

All organizations, foundations, civil society networks and platforms, local governments, and city councils that are involved in or have plans to organize educational and awareness-building initiatives related to the environment and climate change, or have insights to offer for the enhancement of such programs, are welcome to become part of ELN.

## How can you join ELN?

To become a part of ELN, simply fill out an application form and sign the ELN agreement.

For additional details and to access the form, please contact us at:

## ELN Environmental Literacy Network

In 2020, YUVA launched the Environmental Literacy Networking Project in partnership with Kyoto Club (Italy). Within the scope of the project funded by the European Union, we established the Environmental Literacy Network (ELN) with the participation of non-governmental organizations and local governments. ELN has more than 80 members and still continues to recruit new members.

## What is the purpose of ELN?

The aim of ELN is to strengthen cooperation in the field of environmental education by creating a communication network with the participation of non-governmental organizations and local governments, thus contributing to the increase of "globally literate" individuals who can critically look at nature and human relations, develop ideas for solving these problems, research and exhibit responsible behavior and understanding within this framework.

## What do we do in ELN?

### STRENGTHENING CAPACITY THROUGH WORKSHOPS

We are dedicated to facilitating comprehensive capacity-building workshops, both in virtual and in-person formats, tailored for members of ELN.

### ADVOCACY FOR ENVIRONMENT

In collaboration with ELN members, we advocate for the widespread integration of environmental sustainability education within both formal and informal learning settings.

### EMPOWERING THROUGH DISSEMINATION TRAININGS

Our educational program encompasses two essential modules: "Climate Literacy" and "Sustainability and Ecological Literacy." We conduct these transformative trainings online or in face-to-face settings for children and young adults.

### TRAININGS FOR MUNICIPALITIES

Our training initiatives extend to local governments, fostering awareness and understanding of vital environmental issues at the grassroots level.

### TRAINER DEVELOPMENT

We organize Training of Trainers programs for ELN member representatives, furthering our reach and influence.
